

BA 1204

Specialty High Temperature Pink Masking Tape

Description:

BA 1204 is a single-sided pink crepe paper masking tape for critical paint masking application in the automotive, specialty vehicle, and industrial markets where excellent holding and high-temperature performance are required. BA 1204 is compatible with marine-use gel coats, multi-component epoxy finishing systems, and antifouling hull paints, as well as both solvent-based and waterborne coatings used in automotive applications.

Features & Benefits:

- Clean removal
- Conformable on irregular surfaces
- Great adhesion to anodized aluminum, chrome, fiberglass, and plastics
- Resistant to paint flaking, solvents, water and various gel coats
- Temperature resistant up to 325° F for 30 minutes (time and temperature determined by surface)

Applications:

Automotive paint masking

Gel coating

High temperature masking

Industrial paint masking

Construction/ Typical Properties	Value	
Color(s):	Pink	
Adhesive:	Rubber Based	
Backing:	Fine Saturated Crepe	
Elongation at Break:	12%	
	Imperial	Metric
Total Thickness:	6.4 mils	163 µm
Tensile Strength:	25 lb/in	43.7 N/cm
Adhesion to Steel:	34 oz/in	3.7 N/cm
Service Temperature (Up to 30 min):	40 - 325°F	4 - 163°C

Applicable Standards:

- ASTM D 6123/D 6123M-97 (2012)
- Type I AMS-T-21595

The physical properties listed above are typical values and are not to be construed as specifications. Our suggestions and recommendations for use are based on tests we believe to be reliable. Bron Aerotech does not warrant that the product is fit for any particular purpose. Purchaser must determine suitability of the product for the intended use. Bron Aerotech, Inc. assumes no liability for claims beyond the replacement value of our product proved to be defective. Manufactured for and distributed by Bron Aerotech.
