BA 1939

Polyester Film Tape with a Silicone Adhesive System

Description:

BA 1939 is a single-sided 1-mil polyester film tape engineered with a high-performance silicone adhesive for applications requiring strong chemical and high-temperature resistance. BA 1939 provides durable abrasion protection against rough surfaces, fumes, and chemicals, and BA 1939 will not break or tear during removal. BA 1939 features a flexible polyester backing that conforms readily to irregular surfaces, while the silicone adhesive delivers clean, no-residue removal and resists degradation in demanding environments.

Features & Benefits:

- Clean removal
- Conformable around rough or irregular surfaces
- Durable and will not break or tear upon removal
- Protects against abrasion, fumes and chemicals

Applications:

Masking applications where resistance to chemicals and high temperatures is required

Construction/ Typical Properties	Value		Test Method
Color(s):	Violet		
Adhesive:	Silicone		
Backing:	Polyester Film		
Elongation at Break:	100%		
	Imperial	Metric	
Backing Thickness:	1 mil	µm	
Total Thickness:	2.5 mils	µm	
Tensile Strength:	23 lb/in	N/cm	
Adhesion to Steel:	30 oz/in	N/cm	

The physical properties listed above are typical values and are not to be construed as specifications. Our suggestions and recommendations for use are based on tests we believe to be reliable. Bron Aerotech does not warrant that the product is fit for any particular purpose. Purchaser must determine suitability of the product for the intended use. Bron Aerotech, Inc. assumes no liability for claims beyond the replacement value of our product proved to be defective. Manufactured for and distributed by Bron Aerotech.
