BA 7880

Polyester Tape

Description:

BA 7880 is a single-sided blue polyester tape with a silicone adhesive. Due to its abrasion, chemical, and high temperature resistance, BA 7880 can be used in a large variety of applications including powder coat masking, flash breaker and bag sealing applications. BA 7880 also ensures clean removal and sharp paint lines, making it suitable for applications like splicing, tabbing, or roll closing silicone treated liners or materials.

Features & Benefits:

- Clean removal
- Conformable
- Excellent abrasion, chemical and thermal resistance
- Sharp paint lines
- Sticks to hard to stick surfaces

Applications:

Flashbreaker tape when pulling through cured coating

Holding and splicing difficult to stick to surfaces such as silicone liner

Holding parts or sealing vacuum bags during processing

Masking for powder coat painting

Construction/ Typical Properties	Value		Test Method
Color(s):	Blue		
Adhesive:	Silicone		
Backing:	Polyester		
Elongation at Break:	49%		D-3759
	Imperial	Metric	
Backing Thickness:	1 mil	25 µm	D-3652
Total Thickness:	2.4 mils	61 µm	D-3652
Tensile Strength:	21 lb/in	37 N/cm	D-3759
Adhesion to Steel:	31 oz/in	3.4 N/cm	D-3330
Temperature Resistance:	Up to 400°F	Up to 204°C	

The physical properties listed above are typical values and are not to be construed as specifications. Our suggestions and recommendations for use are based on tests we believe to be reliable.
