

BA 7881

Green Polyester Tape

Description:

BA 7881 is a single-sided blue polyester tape with a silicone adhesive. Due to its abrasion, chemical, and high temperature resistance, BA 7881 can be used in a large variety of applications including powder coat masking, flash breaker and bag sealing applications. BA 7881 also ensures clean removal and sharp paint lines, making it suitable for applications like splicing, tabbing, or roll closing silicone treated liners or materials.

Features & Benefits:

- Clean removal
- Conformable
- Excellent abrasion, chemical and thermal resistance
- Sharp paint lines
- Sticks to hard to stick surfaces

Applications:

Flashbreaker tape when pulling through cured coating such as epoxies

Holding and splicing difficult to stick to surfaces

Holding parts or sealing vacuum bags during processing

Construction/ Typical Properties	Value		Test Method
Color(s):	Green		
Adhesive:	Silicone		
Backing:	Polyester		
Liner:	Polyester		
Elongation at Break:	49%		ASTM D3759
	Imperial	Metric	
Backing Thickness:	2 mil	51 µm	ASTM D3652
Liner Thickness:	3 mil	76 µm	
Total Thickness:	3.2 mils	81 µm	ASTM D3652
Tensile Strength:	57 lb/in	100 N/cm	ASTM D3759
180° Peel Adhesion:	44 oz/in	4.8 N/cm	ASTM D3330
Long Term Temperature Resistance:	Up to 400°F	Up to 204°C	

The physical properties listed above are typical values and are not to be construed as specifications. Our suggestions and recommendations for use are based on tests we believe to be reliable. Bron Aerotech does not warrant that the product is fit for any particular purpose. Purchaser must determine suitability of the product for the intended use. Bron Aerotech, Inc. assumes no liability for claims beyond the replacement value of our product proved to be defective. Manufactured for and distributed by Bron Aerotech.
