

BA 815L

Lined Silicone Powder Coating Tape

Description:

BA 815L is a single-sided heavy-duty silicone splicing tape that provides a high temperature, high strength application, in the toughest of environments. BA 815L resists slivering when removed and the release liner provides excellent die cutting ability, easy release.

Features & Benefits:

- Clean removal in high temp applications
- Greater stiffness
- High chemical resistance
- High temperature resistance for surface finishing applications
- Resists flow oozing; removes cleanly
- Stable release liner for excellent die cutting ability

Applications:

Powder coating mask off

Surface finishing and splicing when die cut parts are required

Construction/ Typical Properties	Value		Test Method
Color(s):	Green		
Adhesive:	Silicone		
Liner:	Easy Release Polyester		
Backing:	Polyester		
	Imperial	Metric	
Adhesive Thickness:	1.4 mils	36 µm	
Backing Thickness:	2 mils	51 µm	
Liner Thickness:	3 mils	76 µm	
Total Thickness Without Liner:	3.4 mils	86 µm	
180° Peel Adhesion on Stainless Steel:	30 oz/in	3.3 N/cm	
Temperature Resistance:	400°F	200°C	

Approvals:

- BAC 5034-4 Chemical Processing

The physical properties listed above are typical values and are not to be construed as specifications. Our suggestions and recommendations for use are based on tests we believe to be reliable. Bron Aerotech does not warrant that the product is fit for any particular purpose. Purchaser must determine suitability of the product for the intended use. Bron Aerotech, Inc. assumes no liability for claims beyond the replacement value of our product proved to be defective. Manufactured for and distributed by Bron Aerotech.
