BA Blue Flash 1

Flash Tape: High Temperature Polyester Film with Silicone Adhesive

Description:

BA Blue Flash 1 is a single-sided high temperature polyester film with silicone adhesive, masking tape provides a superior bond and clean removal during high-performance applications including plastics, composite bonding and powder coating applications.

Features & Benefits:

- Bonds to low energy surfaces
- Chemically resistant
- Clean removal
- High strength, no-curl mask
- Reduced failure due to mask slippage

Applications:

Masking applications in chemically corrosive and high temperature environments

Construction/ Typical Properties	Value	
Color(s):	Blue	
Adhesive:	Silicone	
Backing:	Polyester Film	
	Imperial	Metric
Adhesive Thickness:	1.4 mils	36 µm
Backing Thickness:	1 mil	25 µm
Total Thickness:	2.4 mils	61 µm
Adhesion to Steel:	35 oz/in	3.8 N/cm
Max Operating Temperature:	400°F	204°C

The physical properties listed above are typical values and are not to be construed as specifications. Our suggestions and recommendations for use are based on tests we believe to be reliable. Bron Aerotech does not warrant that the product is fit for any particular purpose. Purchaser must determine suitability of the product for the intended use. Bron Aerotech, Inc. assumes no liability for claims beyond the replacement value of our product proved to be defective. Manufactured for and distributed by Bron Aerotech.
