

BA Blue Flash 2

Flash Tape: High Temperature Polyester Film with Silicone Adhesive

Description:

BA Blue Flash 2 is a 2-mil, single-coated high-temperature polyester film tape with a silicone adhesive, designed for superior bonding and clean removal in demanding applications. This tape is ideal for use in plastics, composite bonding, and powder coating, providing reliable performance even under high-temperature conditions.

Features & Benefits:

- Offers a superior bonding to a wide variety of treated papers, films and foils.
- Polyester backing resists damage and doesn't mark parts or tools.
- Polyester tape is cost-effective flash masking.
- Super quick stick adhesive system.
- The polyester backing/ silicone adhesive combination is highly conformable.

Applications:

Splicing applications including in oven splices where good wet out capabilities are critical

Construction/ Typical Properties	Value		Test Method
Color(s):	Blue		
Adhesive:	Silicone		
Backing:	Polyester Film		
Elongation:	120%		
Dielectric Strength:	6,000 volts		
	Imperial	Metric	
Adhesive Thickness:	1.5 mils	38 µm	
Backing Thickness:	2 mil	51 µm	
Total Thickness:	2.4 mils	61 µm	
Adhesion to Steel:	35 oz/in	3.8 N/cm	
Tensile Strength:	50 lb/in	88 N/cm	
Max Operating Temperature:	-100 to 350°F	-73 to 176°C	

The physical properties listed above are typical values and are not to be construed as specifications. Our suggestions and recommendations for use are based on tests we believe to be reliable. Bron Aerotech does not warrant that the product is fit for any particular purpose. Purchaser must determine suitability of the product for the intended use. Bron Aerotech, Inc. assumes no liability for claims beyond the replacement value of our product proved to be defective. Manufactured for and distributed by Bron Aerotech.
