BA 4848

# Non-Silicone Film Masking Tape for Anodizing

BA 4848 is a film masking tape used to protect surfaces during the **anodizing** process.

BA 4848 is a single sided **non-silicone adhesive** applied to a polyester backing with a removable polyester liner.

The liner makes tape great for applying to large parts or converting to unique sizes and shapes on any knife cut table or other die cutting equipment.

#### BA 4848 Approvals:

- Boeing BAC 5034-4 Chemical Processing
- Airbus Process Specification ABP 7-1245: Electrical Bonding of Metallic Material: Assembly Methods
